

# The Award Winning **FLOATSTEP®** Dock Ladders!

- ❑ **Safety!** Provides safe access at any water level or tide.
- ❑ The **ONLY** dock ladder that remains out of the water when not in use reducing electrolysis, corrosion and marine growth.
- ❑ The **ONLY** dock ladder that automatically adjusts to water level changes.
- ❑ The **ONLY** mechanical dock ladder without any pinch points.
- ❑ Fabricated with Industry standard 6000 series aluminum.
- ❑ All TIG welded construction for strength, durability and an attractive finish.
- ❑ More welds per step than our competition for added strength and safety.
- ❑ Durable molded plastic float with a Buoyancy Control valve.
- ❑ High quality plastic bushings provide a smooth, effortless track system.
- ❑ Standard full-length handrail to assist when using.
- ❑ Adaptable to various dock systems.
